Shawn and Ex. 6 PP / Ex. 7(C)

Thank you for the information. I apologize for all the questions but figured it is easier to sort out on the front end. Do we have any information on the cost of that clean up? Or what the estimated amount of hazardous waste was at the Foundry site and an estimated cost of cleanup? I am wondering if it should be added to the table and included in the estimated/actual costs of cleanup/restitution owed by the defendant?
